

West Bengal Hosiery Park Infrastructure Ltd.

Assisted joint sector company

Bharat Chamber, 9/1, Syed Amir Ali Avenue, Kolkata-700 017

March 5, 2020

TO ALL MEMBERS

We would like to draw your kind attention in respect to frequent revisions in the pollution category by the Government.

The Park was approved by the State Environment Committee under green category. As per the recent modifications brought to our notice Hosiery has been included under a new category as WHITE and we only need to intimate the Department concerned by a letter and their consent is not necessary.

However, there are many changes related to printing. The garment printing has been included along with the Bleaching and Dying category as RED. Similar is the case of press printing which has been included in the ORANGE category. Corrugated Box manufacturing has been included in the GREEN category.

In order to keep our Park under green category we suggest that members putting up a garment factory and therein installing any type of printing or a printing press should install ETP on their own in order to comply with the environmental clearance.

This is for your information and doing the needful as and when you start operation.
